Organization: J4MII – Cybersecurity Enthusiasts

Location: Sierra Leone - Developed scalable back-end systems using **JavaScript, TypeScript, Node.js, Express.js**. - Worked with both relational and non-relational databases including **MongoDB, PostgreSQL, and MySQL**. - Focused on performance, security, and maintainable API architecture.

Key Skills & Technologies

- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3, JavaScript, React Native
- **Backend:** Node.js, Express.js, Mongoose, Prisma
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Design:** Figma, Prototyping, UI/UX Design
- **Other:** SEO, Accessibility, Performance Optimization, Cross-browser Compatibility

Projects

Miskul – Student's App

- Feature-rich app tailored to University of Makeni students for grade calculation, results storage, report generation, CV builder, taking notes and AI assistance study session. (miskul.com).

Personal Portfolio Website

- A responsive and SEO-optimized portfolio built with React + Tailwind CSS to showcase projects and skills. (mohamedadgblaportfolio.onrender.com).

Unimak-Link Web Application (Live) – A student management System

- Built and deployed a web platform for university-related communication and interaction.
- Developed frontend using React and backend using Node.js.
- Integrated database for user data management.
- Deployed on Render (unimak-link.onrender.com)

School Websites

- Designed and developed responsive school websites using HTML, JavaScript, and Tailwind CSS.
- Focused on clean UI/UX and accessibility.

Todo Mobile Application (React Native)

- Built a cross-platform task management application.
- Implemented CRUD operations and state management .

Islamic Local Audio Lecture Mobile App

- Developed a mobile app for streaming and organizing local Islamic audio lectures.
- Focused on structured UI and performance optimization.

Certifications & Professional Development

- React & Frontend Development – Code with Mosh

- Modern JavaScript Development – Udemy
- React & Web Development – Dave Gray

Language Skills

- English
- Temne
- Krio

Adequacy for Assignment

Demonstrated ability to handle complex design and development tasks through hands-on experience in freelance, internship, and consultancy roles. Strong technical foundation combined with user-centered design thinking enables effective contribution to multidisciplinary teams and successful project delivery.
